

(HS28) Category (ii) medicines

Definition – a prescription or non-prescription medicine (such as antibiotics, eye/ear drops, paracetamol, cough syrup etc) that is:

- used for a specific period of time to treat a specific condition or symptom; and

- provided by a parent for the use of that child only or, in relation to Rongoa Māori (Māori plant medicines), that is prepared by any other adults at the service.

Name of child:					
Name of medicine:					
Storage required:					
Dose & method:				Time to give:	
				Time of last dose:	
Or specific symptoms/circumstances:					
Parent/Guardian signature:				Date:
