

## ASPIRINGS BEGINNING EARLY LEARNING CENTRE FUNDRAISER - YOU CAN SAVE \$100

The Queenstown Lakes District Council wants to help residents minimise waste by providing a \$100 subsidy on home composters – order yours now!

- **Makes composting easy** – Earthmaker's patented continuous cycle system lets you **add both food and green waste** in the top at anytime, move material through without effort and take compost from the bottom when needed.
- **Gravity does the hard work!** It's a traditional three-stage process but no heavy lifting or turning is required because the stages are stacked vertically.
- **Reduces greenhouse gas emissions** – Earthmaker's unique aerobic process reduces methane emissions and makes compost faster.
- **Great size** (466 litre, 75cm dia, 120cm high) saves on rubbish bags, collection fees, etc. **Can process 1000kg per year into 300 litres of mulch /compost.**
- **New Zealand invented, designed and made** – and sold around the world.
- **Choose free delivery to your door or pick up from your school** when you use the Yourfastshop order form below.
- **Automatically raise funds** – your school receives \$50 for every 4 composters delivered directly to the school or \$5 for each composter delivered directly to a household.
- **Easy assembly** – your Earthmaker will arrive in a flat pack with Assembly Instructions and a User Guide.
- **30 day money back guarantee** offered by Yourfastshop – just send it back if unused or faulty.
- **Heavily reduced price** – only \$97 as \$100 is subsidised by the council.
- The special offer is only for one composter per household. Additional composters are \$197 from Yourfastshop Ltd: 0800 294 694 or email [dave@yourfastshop.co.nz](mailto:dave@yourfastshop.co.nz)
